

CORE OFFERINGS

Managed Student Data

From back-office systems to the classroom, we are passionate about delivering solutions that positively impact educational outcomes. Our team of experts take a wholistic approach to student data management for your school. We go beyond SIS administration, delivering comprehensive solutions that unify your school's technology experience.

Services Include:

- SIS/LMS Administration
- Master Scheduling
- State Reporting
- Online Enrollment and Registration
- Lottery Management
- Systems Integration & Customization

Managed Identity

Let's face it. Every minute spent by a teacher trying to log students into an application in the classroom is a minute wasted. With 1:1 initiatives and STEM curriculum mandates, now more than ever, students (and their teachers) need unified access to their digital learning applications and tools. Let Cortevo's team of experts design a solution that simplifies application access and saves time where it matters most.

Services Include:

- User Identity Management
- Cloud Directory Administration
- User Application Provisioning
- Single Sign-On Services
- EdTech System Rostering

Digital

Whether you're starting a brand new school from the ground up or are simply looking to revamp your existing website, Cortevo's web design and development services can bring your school to life.

Services Include:

- Website Design and Development
- App Development
- UX/UI Design
- Branding
